

# BUNNINGS CFMEU MEMBERS BULLETIN

The CFMEU has consolidated the four Bunnings site Enterprise Agreements into one National Agreement. All four sites have endorsed this position.

The CFMEU has met with Bunnings Management and served this Draft National Agreement on them.

We are awaiting their response.

Bunnings has one National Agreement for all their warehouses across the whole of Australia.

**Our members produce the same frames and trusses in Benalla Victoria as they do in Warnervale NSW but the rates of pay are vastly different.**

The redundancy payments illustrate

the difference in employment conditions.

**To achieve the right outcome it is essential that all sites support each other.**

The national negotiations will take some time. The Union is seeking back-payment of the first wage increase from October 2007. We are conducting regular telephone conferences of all site delegates before and after meetings with Bunnings.

We are mindful of the Christmas shutdown and expect to hold site report back meetings in early 2008.

Please contact your organizer if you have any questions.
